WILL BE A GREAT FAIR

The Michigan State Fair Promises to be the Best Eevr In augurated Pemium List Ou

The 65th annual exhibition of the Michigan State Agricultural Society will be held September 7th-18th at Detroit, under the popular caption of

the Michigan State Fair.
Secretary-Manager Dickinson has made strenuous preparations for this important event and folks in Michigan, and all surrounding states, are evincing lively interest in the coming event—which will afford a list of at-

tractions never before equaled for the amusement loving public.

The premium list is one of completeness and the finest ever issued by the association—the premiums aggregate fully \$150,000, which is a high-water mark for any state or similar fair. Many special features have been added to the list unique in many ways—china and fine arts have been added—premiums in the live stock department and special depart-ments have been liberally increased so that exhibitors now are in position to pull down some very liberal exhibition awards, indeed.

Naturally there is particular interest in the horse racing, for the Michigan State Fair management have always maintained a racing program second to none. For every lover of racing there will be features every single day well worthy the attention of the public. In addition to the splen-did horse races the management have gone ahead on their liberal program for the best, and secured at enormous expense, an automobile feature event that will cause inter-state attention Among those to appear in the auto races are such world famous speed demons as "Wild Bob" Burman, Dis-brow, Rainey, Hearne, Heineman and many other famous professionals and

On the Midway every effort has been made to present a clean lot of unique and entertaining amusement far above the average found at fairs. The management has been busy for many months scouring the country for those features that will appeal to every one, nothing the least objection-able will be found—but at the same time there will be plenty of excitement and thrills. The plan this year is to have a general inspector and manager of Midway shows to see that everything is just as represented—and there will be one of America's foremost exponents of carnival shows to handle the details—the whole Midway attractions being under the C. A. Wortham Show Co.'s direction.

Then the free attractions include

some of the very finest organizations and individual acts ever presented to the American public. The world-famous Kilties Band, which has no peer as a public entertainer, will be featured daily with concerts of the highest order. Negotiations are under way for the best aeroplane opera-tors that dare the high heavens, in feats which cause the beholder to gasp in wonder-loop the loops-lofty tumbles, riding up-side-down and other mid-air thrillers will be carried out. Then there will be the most gigantic balloon aggregation possible, with balloon feats that have never be

fore been demonstrated. There will be a babies' Health Contest, with Mrs. Geo. G. Caron, president of the Detroit Board of the Childrens' Home Society as superintend-This is the first contest of the Fair and already widespread interest has been manifested in the event. There is a very large and attractive set of premiums offered in this connection and all parents are urged to have their babies entered, as the contest is both educational and highly instructive, helping to raise the standard of health and happiness among infants. Taking it all in all, those who attend the Michigan State Fair at Detroit this fall will receive the best time of their lives.

DIDN'T BELIEVE IN THEM.

"Do I believe in lawyers?" said the little man, bitterly. "No, sir, I do

"Why is that?" somebody asked. "Because," replied the little man, "a lawyer will never say outright what he means—he twists things about so. Suppose he wanted to tell you that two and two make four. He would begin: 'If by that particular arithmetical rule know as addition, we desire to arrive at the sum of two added to we should find-and I say this boldly, without fear of contradiction-I repeat, we should find by that par- and of the men in them. ticular arithmetical formula hereinbefore mentioned-and, sir, I take all responsibility for the statement I am now about to make— that the sum of would be four.' The Conjurer Contesses.

That "the hand is quicker than the eye" is one of those accepting sayings invented by someone who knew nothing of conjuring-or, as is more likely, by some cunning conjurer who aimed still further to hoodwink a guillible public. The fact is that the best conjurer seldom makes a rapid motion, is a pig which has a human face in for that attracts attention, even its eye and two noses, one a normal though it be not understood. The pig's snout, and the other a diminutive true artist in this line is deliberate in elephant's trunk, the latter growing every movement, and it is mainly by from its forehead. It has no hair on his actions that he leads his audience its body. Fleischman bought the pig to look not where they ought, but in from a farmer living half a mile from an entirely different direction. Mr. David Devant, who for years has entertained London with his ingenious tricks, has said: "The conjurer must be an actor. By the expression of his face, by his gestures, by the tone of his voice, in short, by his acting, he must produce his effects."-St. Nich-

Church Choir Rows.

Time and again we have, and we shall always have, churches bolted against their pastors over a choir row, for where music is there abideth also rumpus. Artistic temperament seems to bring a cross-patch disposition in which there is more counterpoint than harmony. Military bands, church choirs or grand operas are harder to manage than bags of fleas, and the poor dominies, bandmasters and impresarios are entitled to pity. If the shades of Abbey, Grau and Conried could speak as the waters do speak while they flow, they would unfold a cynic's tale to sour and sorrow the soul.

Busy English County.

The county of Lancashire, England, employs 116,300 people in its coal mines, producing 28,000,000 to 30,000,-000 tons of coal yearly. In 1908 the output per person employed was 243.3 The death and accident rate is high; last year 24 per cent. of the miners received injuries requiring medical attendance. Lives lost num-

Lobsters from Canada.

witty address recently criticized se verely the too-early marriage. "The man who marries a girl of eighteet marries a sealed package," she said Now most of us agree with her that eighteen is too young for either girls or boys to marry,—but is the girl of eighteen any more of a mystery that her sister of twenty-eight? I have known quite mature young women who were fretful and cross before their marrage, who became lovely and amiable after It-and vice versa.

DON'T EXPECT KINDNESS

There are six sorts of people as whose hands you need not expect much kindness. The narrow minder think of nobody but themselves, the lazy are too indifferent, the busy have not time to think, the rich disregard appeals for kindness, the poor have neither spirit nor ability, and the good natured fool is not capable of serving

The Nine Points of Law.

The nine points of law are thus concisely if somewhat cynically given: (1) A good deal of money; (2) a good dcal of patience; (3) a good cause; (4) a good lawyer; (5) a good counsel; (6) good witnesses; (7) a good jury; (8) a good judge; (9) good luck.

Our Duty.

Never to tire, never to grow cold; to be patient, sympathetic, tender; to look for the budding flower and the opening heart; to hope always; like God to love always-this is duty.

The Cherub and the Bank. Yesterday afternoon a tiny boy sat on a terrace step. Around him were four other tiny boys, all of them excitedly interested in a metal bank which the boy on the terrace seemed to have opened with a brick. It looked very much like a hold-up, but when a passing woman asked for details a cherub, whose lawful abiding place seemed to be on a valentine card, ex-

plained that the bank belonged to him aunt, who had "divved" it to him. So, of course, it was all right. Only if anybody's aunt has missed a bank the size of a cigar box with contents therein, why-er-don't blame the maid.-Washington Star.

Oldfield was the first American entry to come under the wire at the world's sweepstakes races at Indianapolis on Decoration Day. At Sioux City, on July 4th, he led the field of the world's fastest drivers for one hundred miles, finally having to retire from the race on account of a bursted radiator.

At Toledo, in addition to racing Beachey, he will go after his own dirt track record for the half mile, the mile and the three-mile mark, using both the Fiat and Christie cars.

Beachey will fly in two aeroplanes of his own construction, Curtiss mod-el, fitted with Gnome eighty horse-power revolving French motors. These motors cost \$6,000 each, and the import duty paid to the New York customs office amounted to \$2,500 additional on each machine.
Oldfield has asked for fifteen local

timers to "clock" his record trials.
